DETAILED ACTION

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. The submitted IDS has been considered. A copy of applicant-submitted Form PTO1449 is enclosed.

3. **Reconsider the undue breadth of at least claims 1 and 23 call for little more than a brake with position sensor and an actuator responding to the signal from the sensor, which is notoriously old.**

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-45 are rejected under 35 U.S.C. 102(a) as being anticipated by submitted WO 03/071150A1 to Severinsson et al.
6. Claims 1-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Ralea et al(6471015).
7. Claims 1-45 are rejected under 35 U.S.C. 102(b) as being anticipated by submitted Dietrich et al(6318513) or Shirai et al(6270172) or Boehm et al(6279694).
8. Claims 1-45 are rejected under 35 U.S.C. 102(e) as being anticipated by Hartstock(6752247).
9. Applicant should note that the examiner reserves the option of requiring restriction and/or election, in due course, pursuant to MPEP 821.03, MPEP 811, etc., based on applicant's response to this office action.
10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas C. Butler whose telephone number is 703-308-2575. The examiner can normally be reached on m-f 5:30 am to 2pm.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
